ACKNOWLEDGEMENTS

This management plan results from work funded by the Darwin Initiative for the Survival of the Species and the Foreign and Commonwealth Environment Fund for the Overseas Territories. The logos of both these organisations are shown on the front cover.

The co-operation and assistance of many organisations and individuals have allowed the work on Ascension Island to be of considerable success:

We are grateful for the active collaboration of both Geoffrey Fairhurst and Roger Huxley during their terms as Ascension Island Administrator. In addition, the following organisations were extremely helpful and contributed to the initiatives when requested: Ascension Island Government, Ascension Island Services, Ascension Island Society for the Protection of Animals, Ascension Island Heritage Society, Cable and Wireless, Computer Services Raytheon, First Ascension Scout Group, Islander Newspaper, Merlin Communications Ltd., *MV Ascension*, *RMS St Helena*, Royal Air Force, RAF Meteorological Office, SERCO, Turner's and the United States Air Force.

Throughout the three years the efforts of Turtle Warden Robert Frauenstein in co-ordinating field studies has been invaluable. He has been ably assisted by a large number of island residents: Julian Anthony, Jackson Armstrong, Toni Bendall, Andrew Bennett, Helena Bennett, Dudley Bowling, Jim Clearwater, Jackie Ellick, Ray Ellick, Mandy Fenemer, Julia Henshaw, Liz Murphy, Niddy Huxley, Gregory Lawrence, Jeff Lowdermilk, Hugh Murray, Read Family, Rodney St. Pierre, Daryl Sim, Donald Stevens, Phillip Stevens, Jonathan Stamp, Sukhtanker family, Delicia Thomas, Steve Thomas, Jason Tim, Kyla Turton, Deon Yon, Karl Yon. Stephen Fowler, Johnny Hobson, Dave Rayney and Jimmy Young gave additional logistical assistance and local knowledge.

We must also acknowledge the following colleagues who gave invaluable input and detailed specialist peer review of the contents of this manuscript:
