CONTENTS

	Page Number
Foreword	2
Important General References	3-5
Anguilla	6-7
Ascension Island	8-11
Bermuda	12-16
British Indian Ocean Territory	17
British Virgin Islands	18-24
US Virgin Islands	20-24
Cayman Islands	25-32
Gibraltar	33
Montserrat	34
The Pitcairn Islands	35
St Helena	36
Turks & Caicos Islands	37
Selected references relating to the Caribbean	38-42

FOREWORD

This publication was initiated as an output of the DEFRA (Department for Environment, Food and Rural Affairs) and FCO (Foreign and Commonwealth Office) sponsored initiative, "Turtles in the Caribbean Overseas Territories (TCOT)" project. It is now being maintained and updated as part of the Turtles in the UK Overseas Territories (TUKOT) initiative, funded by the Overseas Territories Environment Programme (OTEP); a FCO/DfID funding scheme. For the most recent version, please contact **Marine Turtle Research Group, Centre for Ecology and Conservation, University of Exeter in Cornwall, Tremough Campus, Penryn TR10 9EZ, UK, or email: mtrg@seaturtle.org**

The bibliography has been assembled from a diversity of sources, including the personal libraries of project members and from the On-Line Bibliography of the Archie Carr Center for Sea Turtle Research <http://accstr.ufl.edu/biblio.html>. Additional citations and assistance was provided by Andrew Kesteloot, Dave Owens and Jennifer Gray.

No relevant literature are as yet available for the British Antarctic Territory, Falkland Islands, Tristan da Cunha or South Georgia/Sandwich Islands and thus these Overseas Territories are not listed in this bibliography. For comparative purposes, a sub-section for the US Virgin Islands has been included under the heading of the British Virgin Islands owing to their geographic proximity and the wealth of information available from USVI.
